

**CIRCULAR:**

The institute has been able to curb the menace of ragging due to strict vigil and stern actions taken by the institute against the offenders. The new academic session is about to start and admissions for the first year B Tech / M Sc programme are being finalized. In order to instill confidence among the first year students for settling in new environment and to make them supportive to anti ragging efforts by the hostel section, it is necessary to visit first year hostels (Boys: Gajjar Bhavan, Girls: Kasturba Bhavan) at least for first semester of ensuing academic year 2011-12. According to the directives of the Hon. Supreme Court, anti ragging committees are to be formed to maintain vigil on campus and enable fresher's to settle in the new system without being subjected to ragging like activities. Accordingly, following committees of faculty members are formed to visit the hostels on the assigned day; preferably; after 9:00 pm.
